系统门窗复合发泡创始企业
力争打造国内一流无毒无味

环保密封条 制造商 行业经验 15 年

企业理念

》| Corporate Philosophy

企业使命:

为客户创造价值、为最终客户负责的原则、为员工创造机会、为社会创造和谐

Enterprise mission:

Creating value for customers,the customer is responsible for the final principle,creating opportunities for staff,to create a harmonious society

经营理念

追求卓越、塑造完美

Business philosophy:

The pursuit of excellence,create the perfect

企业精神:

(工作)勤奋、(管理)务实、(思维)进取、(措施)创新

Entrepreneurship:

(Work) hard management pragmatic.thinking ahead measures innovation

核心价值观:

做好每一项简单的工作

Core Values:

A simple task to do every

发展战略:

管理规范、经营品牌化、服务网络化、合作共赢

Development strategy:

Standardized management,brand management,service network,and win-win cooperation of

战略目标:

缔造中国一流的高性能无毒、环保密封条制造商

Strategic Objectives:

To create China's leading high-performance non-toxic,environmentally friendly
se manufacturer

COMPANY INTRODUCTION

河北硕键密封科技有限公司，拥有十余年的生产经验工艺技术和专业人才具有研发设计和制造能力、是国内较早生产橡胶密封制品的厂家之一，专业性生产系统门窗密封条、工程用建筑密封条、幕墙密封条机械/设备汽车密封条等各种橡胶制品密封条，橡胶密封件；公司拥有行业先进的自动炼胶系统，自动称量系统等各种自动生产设备；拥有橡胶密封条挤出流水线、各类硫化设备，主要生产设备有橡胶挤出流水线、门窗复合发泡条橡胶三复合四复合挤出生产线、PVC橡塑挤出机、TPE弹性体挤出机、橡胶注射接角机、橡胶注射硫化机、大中型平板硫化机、全方面来满足广大客户的不同需求始，终把产品的质量放在首端，致力于生产技术的改进和产品质量的提高。

始终坚持“以质量求生存，以信誉赢天下，以顾客为中心”的信念。坚持“持续改进”不断满足顾客的新要求。“硕键”品牌已得到了行业内的认可。产品不但受到国内众多客户的青睐，部分产品已销往国外。

Hebei Shuojian Seal Technology Co., Ltd., with more than 10 years of experience in the production of technology and professionals with R & D and manufacturing capabilities, is one of the early production of rubber sealing products manufacturers, professional production system door and window seals, engineering building seals, curtain wall seals mechanical/equipment automotive seals and other rubber products seals, rubber seals; The company has the industry advanced automatic rubber mixing system, automatic weighing system and other automatic system equipment, has all kinds of rubber seal extrusion line, all kinds of vulcanization equipment, the main production equipment has the rubber extrusion assembly line, the door and window compound foamed strip rubber three compound four compound extrusion production line, PVC rubber extruder, TPE elastomer extruder, rubber injection corner machine, rubber injection vulcanizing machine, large and medium-sized plate vulcanizing machine, all aspects to meet the different needs of customers, finally put the product quality in the first place, committed to the improvement of production technology and product quality. Always adhere to the "Quality of survival, reputation to win the world, customer-centric" belief. Adhere to the "Continuous improvement" to constantly meet the new requirements of customers. "Shuo Key" brand has been recognized in the industry. Products are not only favored by many domestic customers, some products have been sold abroad.

硕键塑胶的全部工作（设计、材料、制造及服务）以“一流的设备、一流的管理、一流的检测”为中心，因此硕键塑胶对于设备质量可造性要求严格，拥有国内先进的生产设备真正体现硕键塑胶人的实力，而实力才是追求“一流”的物质基础

The whole work (design, material, manufacture and service) of Shuojian Plastics is centered on "first-class equipment, first-class management and first-class inspection". Therefore, Shuojian Plastics requires strict quality and manufacturability of equipment. Having domestic advanced production equipment truly reflects the strength of Shuojian Plastics Man, and strength is the material basis for pursuing "first-class".

资质

荣誉

》 Qualification Honor

硕键发展壮大的道路，正是脚踏实地的开拓之路。

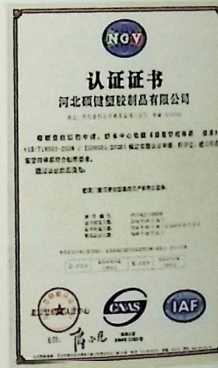

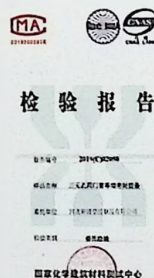

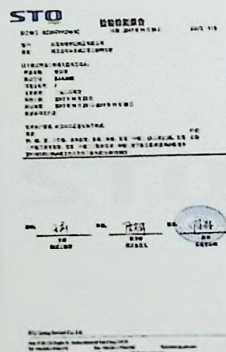

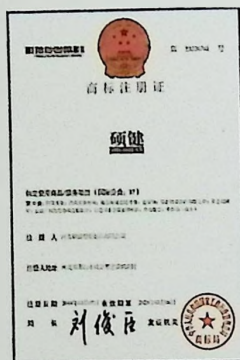

每一个脚印都是铿锵有力，是拼搏的体现，也是实力的见证。

今天，经过几年不懈努力的硕键，步伐更加稳健有力，回首过往的辉煌历程，迈向新的未知高度。

The road of development and expansion of Shuo key is the road of down-to-earth development.

Every footprint is forceful, is the embodiment of struggle, is also a witness to strength.

Today, after several years of unremitting efforts to achieve the key, the pace is more vigorous, looking back on the past glorious course, towards a new unknown height.

PRODUCT ADVANTAGES

产品优势

美国杜邦原料

选用优质材料

密封胶条全部选用100%进口美国杜邦/荷兰DSM原料，好原料铸就高品质；优异的配方性能确保了密封胶条的卓越品质。

Our polypropylene diene monomer sealant all choose 100 % DuPont raw materials, good products from good raw materials, internationally recognized DuPont raw materials excellent performance to ensure that the shenlian strip of excellent quality.

抗老化组方

抗老化组方Anti-aging prescriptions

配比中特加抗老化组方，极大提升了产品的抗老化性能，耐久性优异，可与门窗同寿命。The anti-aging formula is specially added in the proportion, so that the anti-aging performance of the product is greatly improved, the durability is excellent, and the anti-aging formula can be used with doors and windows for the same service life.

高弹性组方

高弹性组方High elastic set of square

硕键胶条采用高弹性组方，提高胶条制品的弹性，提高产品的密封效果。

Shuo key rubber strip adopts high elasticity formula, improve the elasticity of rubber strip products, improve the sealing effect of products.

强效密封

强效密封Greater Seal

硕键胶条采用高弹性组方并添加抗老化组方成分经过高精度模具加工产出，与型材卡槽契合度高，密封性能优越，远超同类型产品。

The bonding adhesive tape is produced by adopting a high-elasticity component and adding an anti-aging component through high-precision die processing, and the bonding adhesive tape is clamped with the profile clamping groove High compatibility, excellent sealing performance, far more than the same type of products.

隔音

防水

降耗

减震

耐久

防风

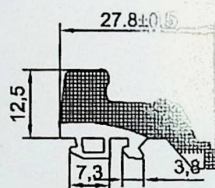

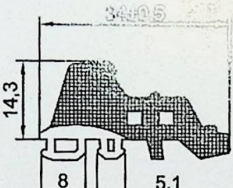

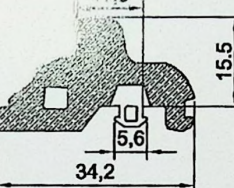

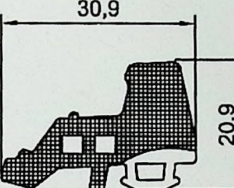

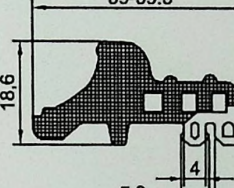

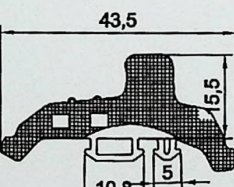

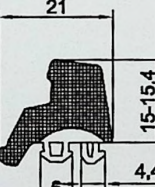

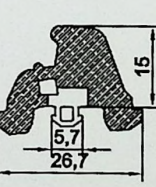

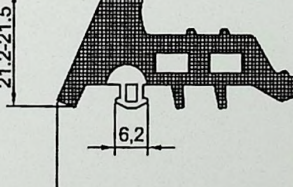

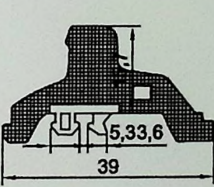

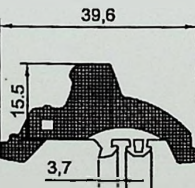

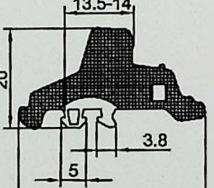

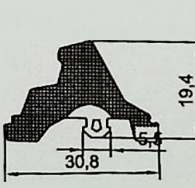

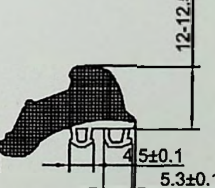

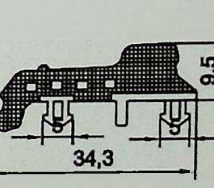

隔热

- 1、特优原料100%进口美国杜邦/荷兰DSM原料，好原料铸就高品质；
 - 2、特精配方大小料精细配比，成品性能优异，表现出众；
 - 3、稳定性强抗拉伸撕裂强度远超行业标准。
 - 4、耐候性好在-40C和高温160度条件下，产品抗紫外线、抗臭氧、耐老化等物理性能保持稳定。
 - 5、机械性好具有优良的综合物理性能，弹性佳，压变<23%，可用于各种动、静态的密封。
 - 6、特别配方特别添加抗老化组方与高弹性组方，产品耐久性与密封性更卓越。
 - 7、表现出众硕键胶条综合性能表现出众，防风、防水、隔音、隔热、降耗、耐久、减震效果优良，远超行业标准，用于高层以上建筑及沿海强风地区建筑门窗，火车，地铁，高铁，屏蔽门，旋转门安然无忧。
- 1, excellent raw materials 100 % imported DuPont / Netherlands DSM raw materials, good raw materials cast high quality;
 - 2, the special fine formula has fine proportion of materials and large materials, and the finished product has excellent performance and outstanding performance;
 - 3, the stability is strong, the tensile tear strength is far beyond the industry standard.
 - 4, weather resistance under the condition of - 40c and high temperature 160 degrees, the product anti - uv, ozone, aging resistance and other physical properties remain stable.
 - 5, good mechanical properties have excellent comprehensive physical properties, good elasticity, pressure change < 23 %, can be used for all kinds of dynamic and static seal.
 6. the special formula is specially added with anti-aging formula and high-elasticity formula, so that the durability and sealing performance of the product are more excellent.
 - 7, outstanding performance key rubber strip comprehensive performance outstanding, windproof, waterproof, sound insulation, temperature insulation, consumption reduction, durability, shock absorption effect is excellent, far beyond industry standards, used for high-rise buildings and coastal strong wind area building doors and windows, trains, subways, high-speed rail, shielding door, revolving door safe and easy.
