作为百年品牌的传承者

德国的工业设计文化精髓，拥有德式顶尖技术和精湛工艺

世界上最悠久的铝型材深加工设备品牌之一

海富纳——既先行于时代，也驱动着未来

As the inheritor of a century-old brand

The essence of German industrial design culture, with German top technology and exquisite craftsmanship

One of the world's oldest aluminum profile processing equipment brands.

Haffner goes ahead of times and also drive future.

海富纳设备仅此一家，请认准“ ”注册商标

乔治·海富纳是物理学家，生于莱茵河畔的工业名城--科隆。乔治·海富纳的父亲是一个技术熟练的锁匠，对哲学和数学都十分爱好，乔治海富纳从小就在父亲的教育下学习数学并受到有关机械技能的训练，这对他后来进行研究工作特别是自制仪器和设备有很大帮助。

乔治·海富纳并不热心继承父亲的锁匠事业，而是终日和欧洲各国著名建筑师研究新的建筑文化和门窗加工设备解决方案，希望通过扩大门窗面积，提出增强建筑通风性和室内亮度的理念，改变传统建筑阴暗、压抑的空间格调。

承载着乔治·海富纳的梦想与远见思维，第一款Haffner手动式铝合金门窗加工设备，于1926年诞生在德国重机械工业城市--斯图加特。它传承着德国机械工业设计文化的精髓，以纯德式机械风格和精湛工艺闻名于世，成为世界上最悠久的铝合金门窗幕墙设备品牌之一。

海富纳历史传奇

HAFFNER LEGEND

Born in the industrial city of river Rhine-Cologne, George · Haffer was a physical scientist. George · Haffer's father was a skilled locksmith and interested in philosophy and math. When he was a child, George · Haffner studied math from his father and got the training about mechanical skill, which later gave him a lot of help in research especially self-made apparatus and equipments.

George · Haffner is not enthusiastic about inheriting his father's locksmithing career, but has been studying new architectural culture and door and window processing equipment solutions with famous European architects all the time, hoping to increase the ventilation and indoor brightness of the building by expanding the area of doors and windows. Concept, to change the dark and depressing spatial style of traditional buildings.

Carrying the dream and vision of George · Haffner, the first Haffner manual aluminum alloy door and window processing equipment was born in Stuttgart, the German heavy machinery industry city in 1926. It inherits the essence of the German machinery industry design culture, is famous for its pure German mechanical style and exquisite craftsmanship, and has become one of the oldest aluminum alloy doors and windows curtain wall equipment brands in the world.

海富纳国际集团

海富纳传承与升华 INHERITANCE AND SUBLIMATION OF HAFFNER

21世纪初，随着中国经济的腾飞发展，辉创传统的德国设备品牌“”也瞄准了这一片具有5000年悠久历史文化的东方热土。在广东肇庆国家高新区成立了生产基地和专门的研发中心，并在北京、上海、成都、深圳、香港等各大城市设立办事处，不断加强对客户的技术支持，更能在最短时间内提供及时、有效的服务，免除客户的后顾之忧，开创铝型材深加工智能装备品牌在中国传承发展的新纪元。

At the beginning of the 21st century, with the rapid development of China's economy, Hui Chuang's traditional German equipment brand "" also aimed at this oriental hot spot with a long history and culture of 5,000 years. Established a production base and a special R&D center in the National High-tech Zone of Zhaoqing, Guangdong, and set up offices in Beijing, Shanghai, Chengdu, Shenzhen, Hong Kong and other major cities to continuously strengthen technical support to customers and provide it in the shortest time. Timely and effective service eliminates customers' worries, and creates a new era for the inheritance and development of aluminum deep-processing intelligent equipment brands in China.

董事长致辞

CHAIRMAN'S SPEECH

衷心感谢关注着海富纳国际集团的每一位朋友，因为你们的理解和信任，支持与关心，让我们充满信心与动力，集团得以稳健蓬勃发展。多年来，海富纳以为客户量身定制铝型材深加工智能装备解决方案”为己任，致力成为铝加工智能装备行业世界标杆。

千里之行，始于足下。海富纳国际集团扎根于中国，一路走来，风雨兼程，我们始终秉承“诚信、创新、共赢”的企业精神，在发展的历程中，得益于每一位关心和支持海富纳朋友的真诚合作，也得益于曾为海富纳发展壮大做出贡献的每一位海富纳人。我们深知历史的变化，现实的机遇，未来的挑战，这一切终将凝聚成合作与发展：我们将本着“团结、谦虚、自信、诚实”的行为准则，与您携手一起创造更加辉煌的“”。

精益求精，我们脚踏实地；胸怀天下，我们志存高远；立足广东，辐射全球，放眼世界。海富纳在“诚信为根、品质为本、服务为道、创新为路”的经营理念指导下，健康高速的发展。展望未来，我们深信，海富纳将延续昨日的辉煌，引领行业的未来。我们愿进一步加强与国内外各界朋友的交流与合作，为推动世界铝型材深加工智能装备行业的进步与发展，相互成就，和谐共赢。

Sincerely thank you for trusting and understanding Haffner Group, because of your support and concern, we obtain full of confidence and power develop steadily. Over the years, Haffner is committed to build aluminum profile processing equipment manufacturing and hold for the integrated customized solutions as our mission to achieve certain influence on intelligent aluminum profile working equipment industry of the world.

As Chinese Proverb says "the longest journey begins with the first step". I founded Haffner Group with rooted in Zhaoqing City, China. Upholding the enterprise spirit of "Integrity, Innovation, Win-Win", during the course of competition and opportunities, we Haffner cares about every Haffner friends, and we will keep contributing on development and growth of world known brand ".

Keep improving, we based in Guangdong, radiating the world, and looking at the world. Under the guidance of the business philosophy of "integrity as the root, quality as the foundation, service as the way, and innovation as the way", Haffner is developing at a healthy and high speed. Looking to the future, we are convinced that Haffner will continue yesterday's glory and lead the future of the industry. We are willing to further strengthen exchanges and cooperation with friends to promote the progress and development of the world's intelligent aluminum profile processing equipment industry with mutual achievement, harmony and win-win.

集团简介

GROUP INTRODUCTION

海富纳国际集团旗下拥有三大公司：德国海富纳国际集团有限公司、广东海富纳数控科技有限公司、广东麦普数控设备有限公司。海富纳集团致力成为铝材加工智能装备行业世界标杆；主要生产智能自动化生产线、智能CNC加工中心、数控双头锯、自动伺服送料切割锯、数控端面铣、数字组角机等系列产品；应用于建筑门窗幕墙、铝模板、汽车轻量化、智能家居、5G基站、卫浴五金、轨道交通、太阳能光伏、移动通讯设备、航空舰艇等行业领域，是一家高品质德系铝型材深加工智能装备系统集成商。

海富纳集团中国总部位于广东肇庆国家高新区，集研发、设计、生产、销售、培训、售后服务为一体的铝型材深加工智能装备综合基地，并聘请了多名在德国和意大利工作多年经验丰富的专业高级技术工程师组合的核心技术研发团队。产品主要采用德国精湛成熟的技术制造工艺与意大利高端设计风格和理念，为客户量身定制铝型材深加工智能装备解决方案。营销网络遍布国内多个省、市、地区，同时对外远销加拿大、南非、肯尼亚、泰国、菲律宾、新加坡、印度、斯里兰卡、印度尼西亚、澳大利亚等国家，并多次被评为“广东省守合同重信用企业”。

铭记初心，铸造未来，以创新发展为航向，以严苛态度锻造高品质产品，将“诚信为根、品质为本、服务为道、创新为路”的经营理念贯穿与客户服务环节，由专业售后服务团队专项追踪，构建7X24小时快速响应机制，确保客户无忧。未来，海富纳将继续以诚信生产为本，以客户满意度为目标，不断创新发展，与您共同携手打造成为国际化铝型材深加工智能装备的现代型企业集团。

Haffner Group obtains three companies and subsidiary brands: Germany Haffner International Group Co., Ltd, Guangdong Haffner CNC Technology Co., Ltd, Guangdong Mepal CNC Equipment Co., Ltd. Mainly in equipments of intelligent automatic aluminium working production line, CNC Machining Center, CNC Double Miter Saw series, Servo Feeding Saw, CNC Notching, Corner Crimper series in application of constructure window, door, facade, smart home system, new energy vehicle, solar energy PV module, rail transportation, aluminium template, mobile communication, aviation components, furniture, architectural decoration material process for aluminium profile working industry. Haffner committed to be the world leading of intelligent aluminium profile process machinery industry as an international high-tech enterprise.

Haffner Group (China production base) is located in National High-Tech Zone, Zhaoqing, Guangdong, China. With R&D, design, production, sales, training and after-sales service centers, we hold a core technology research and development team with several experienced senior technical engineers in Germany and Italy. Our machines mainly adopt Germany skilled and mature technics as well as Italian design conception concept in customized comprehensive solutions of aluminum profiles' deep processing machines manufacturing. Haffner marketing network is mainly in China and also exported to Canada, South Africa, Thailand, Singapore, India, Sri Lanka, Indonesia, Australia and other countries with honored as "Guangdong Provincial Contract and Credit Enterprises".

We take innovation and development as our developing direction, and forging high quality products with strict attitude. Haffner Group sticks to "Honesty is the root, quality is the foundation, service is the way, innovation is the way," as operation philosophy. Constructing 7x24 hours fast response system in order to make sure customers satisfaction. In the future, Haffner will continue to develop in intelligent aluminium profile working machines manufacturing to become outstanding industry benchmark and modernized comprehensive group.

New Base Headquarters Of Haffner Group

1926
SINCE

海富纳集团国际领域知名品牌

Haffner Group International World Known Brands with Cooperation

一切为了提高铝型材加工效率

Haffner for improving the efficiency of aluminum profile process

让海富纳成为高品质的代名词

Haffner is a synonym for high quality machinery for aluminum profile fabricating

企业文化 Company culture

● 企业愿景 -- 成为铝材加工智能装备行业世界标杆。
Company Vision: Become the world benchmark of aluminum processing intelligent equipment industry.

● 企业核心价值观 -- 为顾客创造效益，为员工创造机会，为社会创造价值。
Core sense of worth: Create benefits for customers, create opportunities for employees, and create value for society.

● 企业经营理念 -- 诚信为根、品质为本、服务为道、创新为路。
Operation Philosophy: Honesty is the root, quality is the foundation, service is the way, innovation is the way.

● 企业使命 -- 让铝材加工装备更智能。
Company Mission: To be aluminum profile processing equipment further intelligent.

德国工艺 / GERMANY TECHNOLOGY

“德国工艺”代表专业、精益求精、追求极致。

“German craftsmanship” stands for professionalism, excellence, and the pursuit of perfection.

德国设计 / GERMANY DESIGN

海富纳源于德国1926年，以德国文化设计的严谨和有序的设计理念。

Haffner originated in Germany in 1926, with the rigorous and orderly design concept of German cultural design.

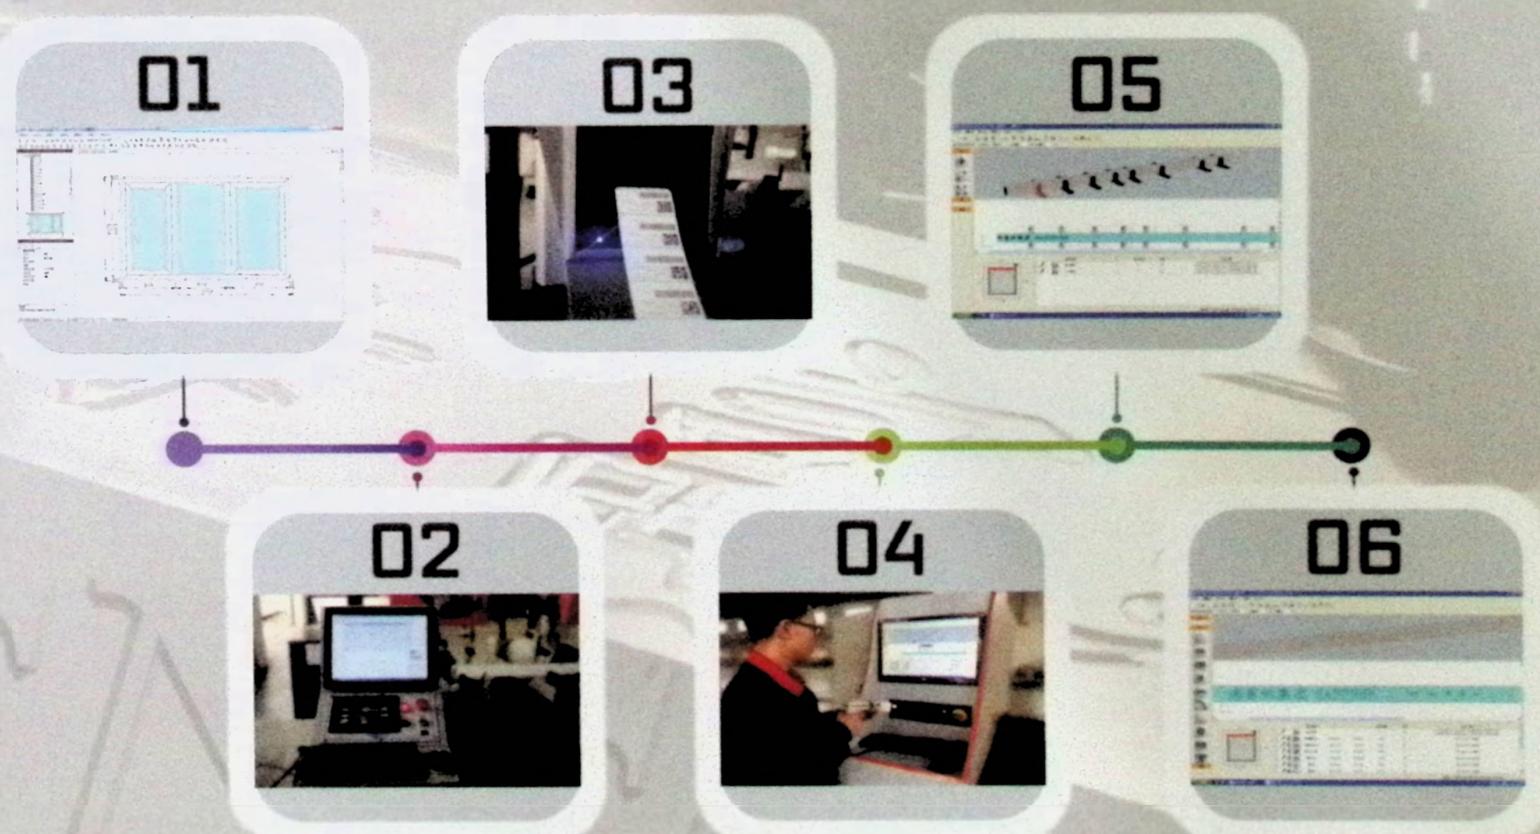

OUR TEAM 企业团队

Haffner/网络数据无纸化下单

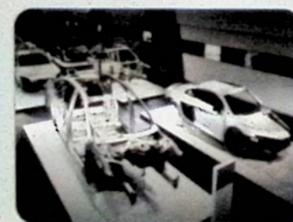

Haffner/ Network Data Management by Paperless Order Function

2008年，德国海富纳在中国设立了研发中心，并为此专门投入巨资建立对接各种设计软件平台的端口和数据中心。经过海富纳团队的不懈努力，使产品机械设计平台从二维发展到三维全数字设计，电器设计方面从传统电气CAD设计发展到世界先进的项目管理软件平台，逐步形成以客户需求为导向的技术研发模式。

无纸化下单整体的流程是：

从办公室PC端设计软件直接下单到网络数控双头锯平台 → 双头锯自动识别要切割加工的型材数据 → 切割完自动打印二维码
→ 加工中心加工工序直接扫取二维码信息 → 产生集成的型材数据 → 加工中心自动读取加工工序，不仅可以根据客户需求实现量身定制设备，还可以为客户提供工厂数字化的全面解决及优化管理方案。

智能双刀专业45度锯切中心

Intelligent Double-blade Professional 45 Degree Sawing Center

产品介绍 Product Description

沿用成熟工艺技术，主体部件全部采用进口品牌。机械手自动完成送料、切割、出料，自动化程度高，单人可全程操作，效率高，设备稳定性好，伺服控制，保证切割精度，快速精确，可根据客户需求定制，适用于家装门窗、太阳能边框、大装饰铝制品、汽车轻量化等铝型材的切割。

Apply mature technology and the main components are all imported brands. The manipulator completes the function of feeding, cutting automatically with a single person operating the whole process easily. With high process efficiency, stability, servo control. Ensure cutting accuracy . It can be customized according to customer's demands. Suitable for aluminum doors, windows, solar frame, large decorative aluminum products, automotive lightweight of process on various aluminum profiles.

技术参数 Specification

主机功率 Motor power	2x3.0 kW
锯片尺寸 Saw blade diameter	φ500x30xT120
切割角度 Cutting accuracy	45°
切割精度 Cutting accuracy	±0.1mm/m

源于德国·经典传承

Intelligent integrated workstation

激光|钻铣|切割|数智|一体化

技术参数 Specification

输入功率 Main motor power	16kw
锯切电机 Cutting motor	3KW
锯切长度 Cutting length	350-600mm
锯切宽度 Cutting width	150mm
锯切高度 Cutting height	150mm
锯切角度 Cutting degrees	45°-90°
机械手最大速度 Manipulator Max speed	100mm/s
锯片直径 Saw blade size	Φ 600mm
切割精度 Cutting precision	±0.1mm

产品介绍 Product Description

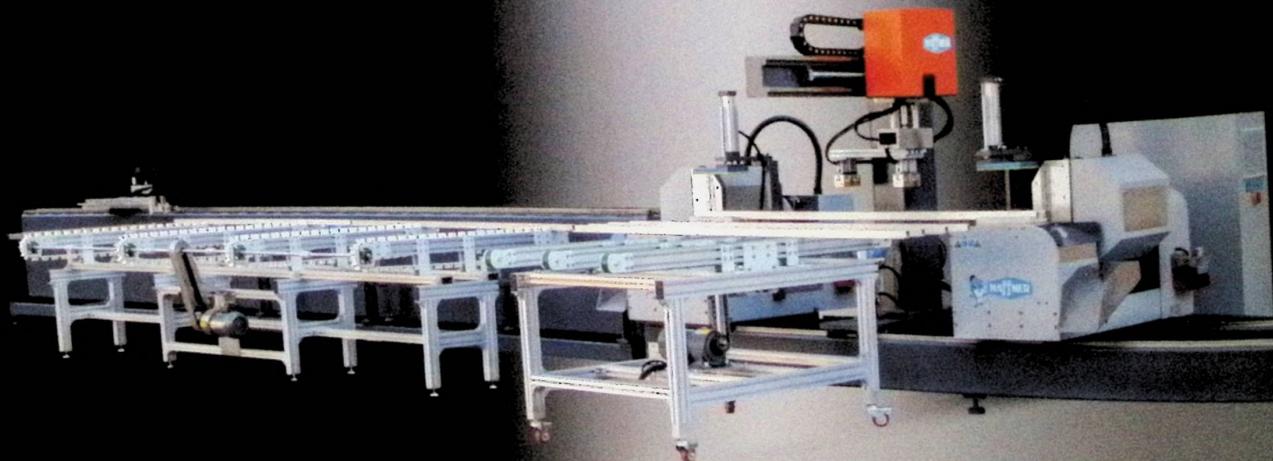

沿用成熟工艺技术，工业计算机系统控制，信息准确好分析；集激光、钻铣、切割、智能一体化，专业应用于自动化铝型材加工，送料系统全伺服控制，保证切割精度；实现人机对话，自动化程度高；可根据客户的需求定制化，适用于高端家装门窗、幕墙、太阳能边框、智能家居、铝制轻量化等领域。

Apply mature technology, industrial computer system control, accurate information analysis. Suitable for laser, drilling and milling, cutting, intelligent integration, professional for automatic cutting center with full servo control of feeding system to ensure cutting accuracy; Achieve man-machine dialogue, can be customized according to customer needs. Available for fields of high-brand home decoration in aluminium doors and Windows, curtain walls, solar frame, smart home, aluminum lightweight etc.

HT-570

重型智能五轴数控加工中心

Heavy-duty Intelligent 5 Axis CNC Machining Center

产品介绍 Product Description

德国西门子工业计算机系统控制，进口意大利高速电机主轴，适合各种型材钻铣、雕刻、攻牙、倒角、切割等多功能精密加工，尤其在门窗幕墙、工业型材、航天航空、轨道交通、汽车轻量化、智能家居、5G基站等领域，保证产品的加工精度。配8工位刀具库和一组锯片，自动快速换刀。一次装夹可完成5个面加工，配15kw大功率主轴。

Controlled by German Siemens industrial computer system with imported Italian high-speed main spindle. Suitable for multi-function precision machining on drilling, milling, engraving, tapping, chamfering, cutting, etc. of various aluminum profiles, especially for aluminum doors and windows, curtain walls, industrial profiles, aerospace, rail transit, automotive lightweighting, smart home, 5G base stations and other fields to process to ensure product processing accuracy. Equipped with 8 station tool magazine and a set of saw blades, which can automatically change tools. 5 surface machining can be completed in one clamping with 15kw high power spindle.

技术参数 Specification

主轴功率 Main motor power	15kw
A 轴行程 A axis range	±90°
C 轴行程 C axis range	±135°
X 轴行程 X axis range	0000~12000mm
Y 轴行程 Y axis range	1820mm
Z 轴行程 Z axis range	500mm
X 轴速度 X axis speed	80mm/min
Y 轴速度 Y axis speed	60mm/min
Z 轴速度 Z axis speed	30mm/min

源于德国。经典传承

HT-360

重型智能三轴数控加工中心

Heavy-duty Intelligent 3 Axis CNC Machining Center

产品介绍 Product Description

沿用成熟工艺技术，主体部件全部选用进口品牌，采用CAM高品质加工软件，适合各种铝型材钻铣、雕刻等加工，尤其在大型门窗幕墙、工业型材、智能家居、汽车轻量化等领域。配8工位旋转刀具库，自动快速换刀，操作简单易学。保证高品质，加工精度高。

Apply mature technology, the main components are with all imported brands. The CAM high-quality processing software is in application. Suitable for drilling, milling, engraving and other processing of various aluminum profiles, especially in the fields of large-scale aluminum doors and windows, industrial profiles, smart homes, and lightweight automobiles to process. Equipped with 8 station rotating tool magazine with fast tool change in easy operation to ensure high quality and high processing precision.

技术参数 Specification

主轴功率 Main motor power	9kw
主轴转速 Rotation rate of main range	0~2400
X 轴行程 X axis range	7500mm
Y 轴行程 Y axis range	580mm
Z 轴行程 Z axis range	450mm
X 轴速度 X axis speed	90m/min
Y 轴速度 Y axis speed	50m/min
Z 轴速度 Z axis speed	30m/min

HT-475

重型智能四轴数控加工中心

Heavy-duty Intelligent 4 Axis CNC Machining Center

产品介绍 Product Description

沿用成熟工艺技术，主体部件全部选用进口品牌，采用CAM高品质加工软件。适合各种铝型材钻铣、雕刻、倒角等多功能精密加工，尤其在门窗幕墙、工业型材、航空航天、轨道交通、汽车轻量化、智能家居、5G基站等领域。保证产品的加工精度，配8工位刀具库，自动快速换刀，一次装夹可完成3个面加工，A轴可在 $\pm 90^\circ$ 上做任意角度加工。配9kw大功率主轴，伺服控制。

Apply mature technology, the main components are with all imported brands. The CAM high-quality processing software is in application. Suitable for drilling, milling, engraving, chamfering and other processing of various aluminum profiles, especially in the fields of large-scale aluminum doors, windows, curtain walls, industrial profiles, aerospace, rail transit, automotive lightweight, smart home, 5G base stations to process. Equipped with 8 station rotating tool magazine with fast tool change in easy operation to ensure high quality and high processing precision. And the A axis can be processed at any angle at $\pm 90^\circ$. 3 surface machining can be completed in one clamping with 9kw high-power spindle in servo control system.

超大型七轴数据复合多角度双头锯

7 Axis CNC Compound Multi-angles Double Miter Saw

产品介绍 Product Description

沿用成熟工艺技术,主体部件全部采用进口品牌。设备稳定性好,沿用“自下而上”的安全高效切割方式,五轴伺服控制+二轴变频,保证切割精度,可进行复合角度切割,可以根据客户不同的需求进行设计及制造,适用于建筑幕墙、大装饰铝制品、阳光房、汽车轻量化、轨道交通等铝型材的切割。

Adopt mature technology, and the main components are all imported brands. With safe and efficient cutting method of "bottom-up", 5 axis servo control + 2 axis frequency conversion to ensure cutting accuracy and perform compound angle cutting according to different demands of customers. Suitable for aluminum profiles process for building curtain walls, large decorative aluminum products, sunshine rooms, lightweight automobiles, and rail transit in high precision.

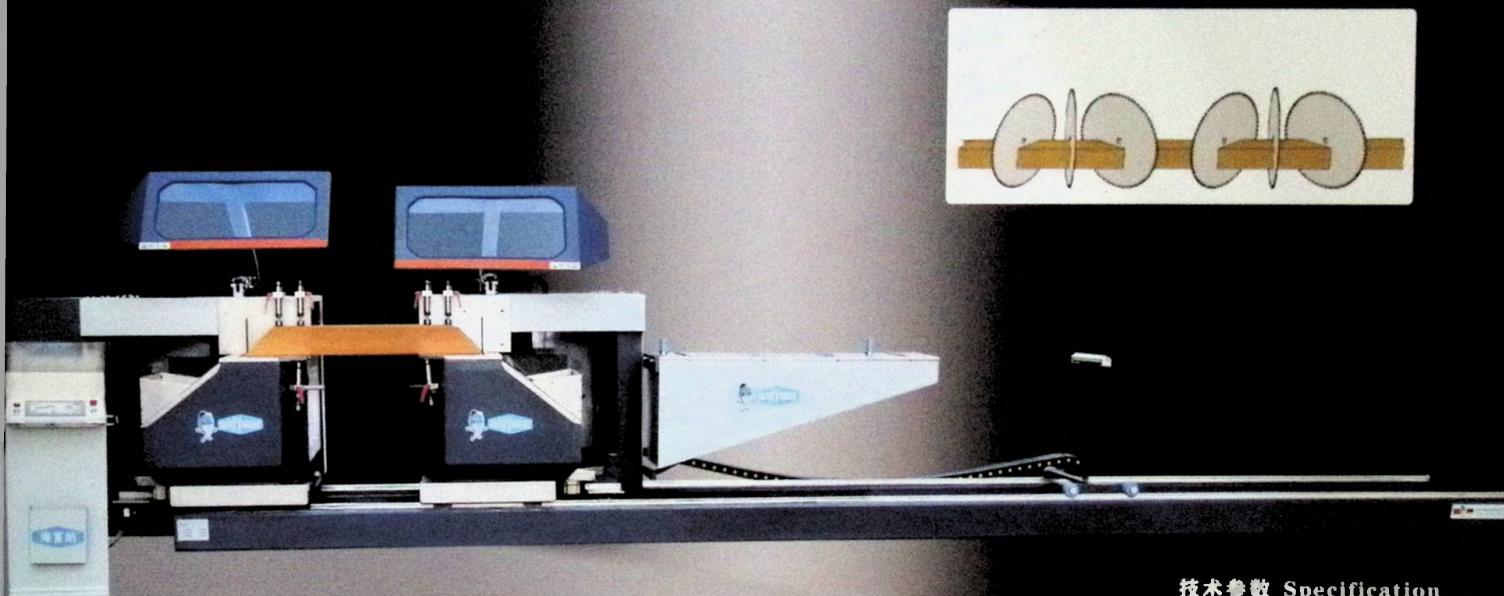

技术参数 Specific

电机功率 Motor power
锯片尺寸 Saw blade diameter
直角范围 Pivoting angle
摆角范围 Tilting angle
定位精度 Positioning accuracy
锯切宽度 Cutting width
锯切高度 Cutting height
最长切割长度 Max. cutting length

HT-618

五轴数控复合多角度双头锯(升级版)

5 Axis CNC Compound Multi-angles Double Miter Saw (Updated Version)

产品介绍 Product Description

沿用成熟工艺技术，主体部件全部选用进口品牌，设备稳定性好，沿用“自下而上”的安全高效切割方式，保证切割精度，伺服控制。可进行复合角度切割，针对建筑幕墙、大装饰铝制品、阳光房、汽车轻量化、轨道交通等铝型材的切割。

Adopt mature technology, and the main components are all imported brands. With safe and efficient cutting method of "bottom-up" to ensure cutting accuracy and perform compound angle cutting according to different demands of customers. Suitable for aluminum architectural curtain walls, large decorative aluminum products, sunshine rooms, lightweight automobiles, and rail transit in high precision.

技术参数 Specification

电机功率 Motor power	2×3.0 kw
锯片尺寸 Saw blade diameter	φ 600×30×144
旋角范围 Pivoting angle	22°~90°~135°
倾角范围 Tilting angle	45°~90°
定位精度 Positioning accuracy	±0.1mm
锯切宽度 Cutting width	200mm
锯切高度 Cutting height	100mm

HT-615

信息化数控精密双头锯

High Precision CNC Double Miter Saw For 45 And 90 Degree Process

产品介绍 Product Description

沿用成熟设计理念结合客户切割需求设计开发，“从后向前”的切割方式。采用伺服电机控制，机体可自由摆角45° / 90°。双锯头锯片可同时进行切割，也可单独切割，运转平稳，充分保证了切割面质量。进给系统及用进口直线导轨，精度高，寿命长。可以根据客户不同的需求进行设计及制造，适用于高端门窗幕墙、智能家居、汽车轻量化、轨道交通、建筑装饰材料等高精度切割。

Adopt mature technology and the main components are all imported brands. Follow the safe and efficient cutting method of from "back to front" for customized demands. Controlled by a servo motor, the machine freely swing at 45°/90°, which could cut at the same time or cut separately. The operation is stable and the quality surface is fully guaranteed. The feed system adopts imported linear guide. Available for cutting on aluminum doors, windows, curtain walls, smart homes, lightweight cars, rail transit, and building decoration materials in high precision.

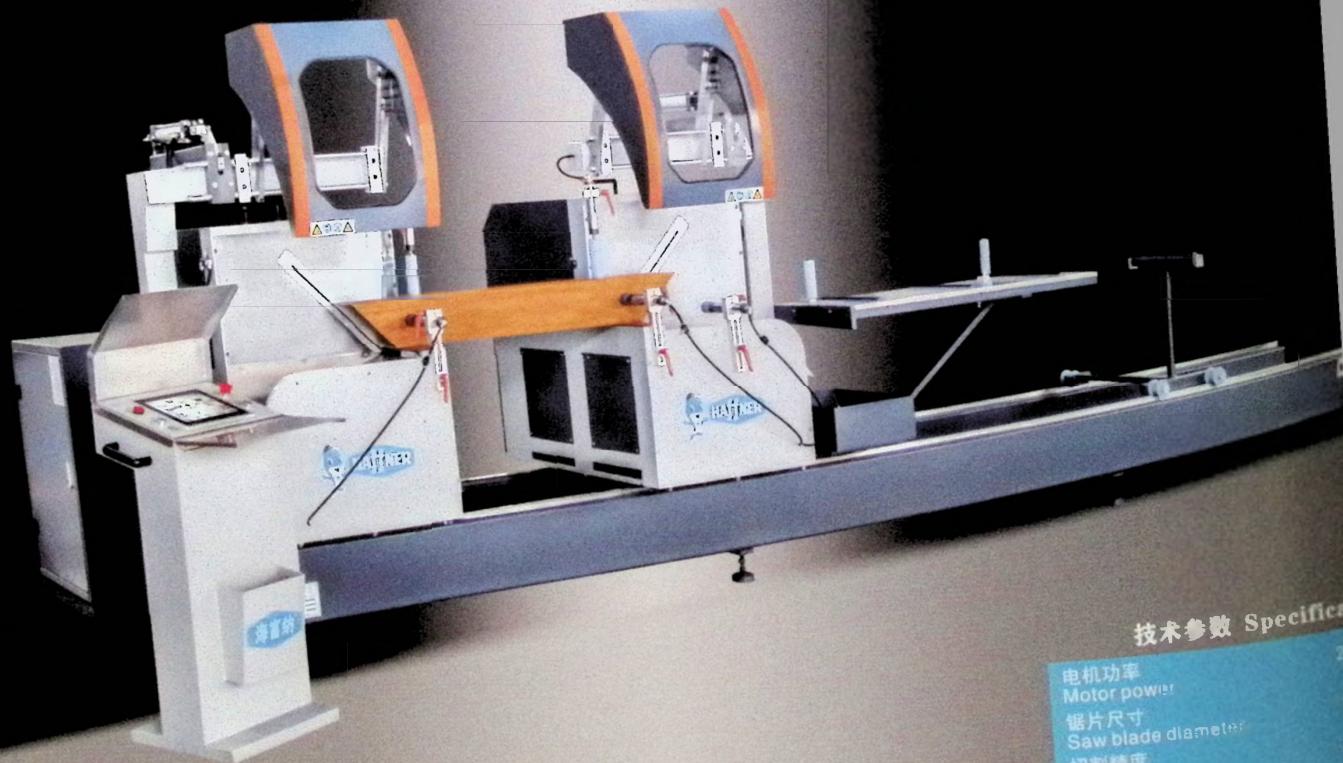

技术参数 Specification

电机功率 Motor power	2 x 3.0 kw
锯片尺寸 Saw blade diameter	ø 500/600x30xT120/T144
摆臂范围 Pivoting angle	45° / 90°
切割精度 Cutting accuracy	±0.1mm/m
锯切宽度 Cutting width	140mm/180mm(ø 500/600)
锯切高度 Cutting height	135mm/255mm(ø 500/600)
进给切割长度45 Min. cutting length	400mm/500mm(ø 500/600)
进给切割长度90 Min. cutting length	400mm/500mm(ø 500/600)
最长切割长度 Max. cutting length	4800mm

产品介绍 Product Description

主要用于铝型材和PVC门窗料上的两侧边孔同时加工，为保证两侧加工精度，在一次装夹情况下，多个孔，选用进口轴承，效率高、速度快。

Mainly used for the simultaneous processing of side holes on aluminum profile and PVC door and window profiles. To ensure the processing accuracy of both sides, multiple holes can be processed at the same time under the condition of one clamping. Imported bearings are selected for high efficiency and fast speed.

HT-678
多头组合钻床
Multi-heads Drilling Machine

技术参数 Specification

主机功率 Motor power	8x1.5 kw
标准配置刀具头 Standard drill-head	6 pcs
工作台 Workable size	250x260mm
钻削孔径 Diameter of drill hole	Φ3~Φ15

产品介绍 Product Description

主要用于门窗幕墙、工业型材、塑料钻孔，电机与直连式输出，钻孔稳定，加工精度高。主轴可配普通钻夹头和多孔器，钻孔方便快捷。采用快慢结合，精密油压稳速，进给平稳，效率高。

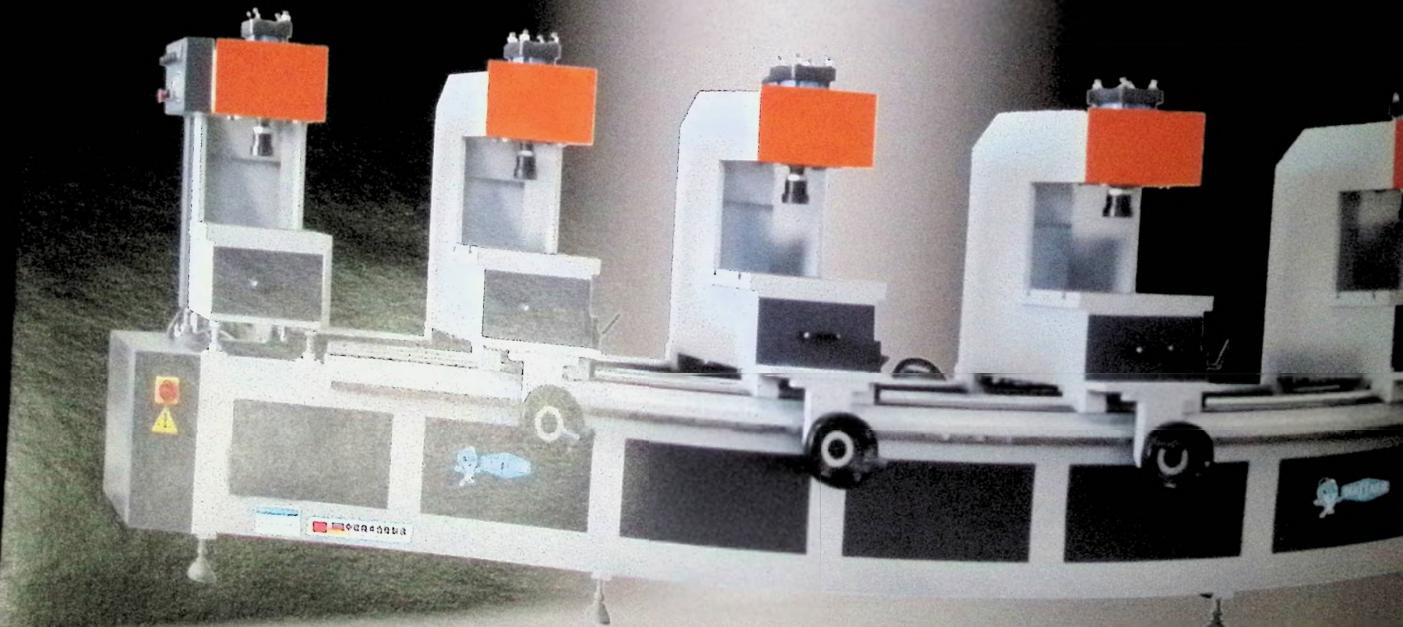

Mainly used for aluminum doors and windows, curtain walls, industrial profiles, plastic drilling. motor and direct-connected output, stable drilling, high processing in high accuracy. The main shaft can be equipped with ordinary drill chuck and porous devic. Adopt fast and slow combination, precise oil pressure stable speed, stable feeding and high efficiency.

HT-665

五缸快速油压冲床

Five Tanks Rapid Hydraulic Punch

产品介绍 Product Description

主要用于门窗幕墙、太阳能组件单模和组合模配套使用。机床选用高性能液压件驱动，功率大，噪音小，寿命长。可完成各种百叶型材，隔热型材的全部孔和缺口的冲裁加工。同时5个加工头可以连续工作，也可以单独工作，提高生产效率。

Mainly used for aluminum door, window and curtain wall, solar module single mode and combined mode. The tool is driven by high-performance hydraulic parts, with high power, low noise and long life. Complete the punching processing of all the holes and gaps of heat insulation profiles. And the 5 processing heads can work continuously or individually to improve efficiency.

油泵功率 Oil pump power	3.7kw/2.2kw
最大冲程力 Max. punching force	12000 kg
冲裁厚度 Punching thickness	0.6~3mm

**产品介绍 Product Description**

主要用于门窗幕墙、太阳能、智能家居、工业型材的单模和组合模配套使用。机床选用高性能液压件驱动，功率大，噪音小，寿命长，不同模具可做不同效果。

Applied for single and combined molds demands on aluminum doors, windows, curtain walls, solar energy, smart home, and industrial profiles. The tool is driven by high-performance hydraulic parts, with high power, low noise and long life. Different molds will show different designs.

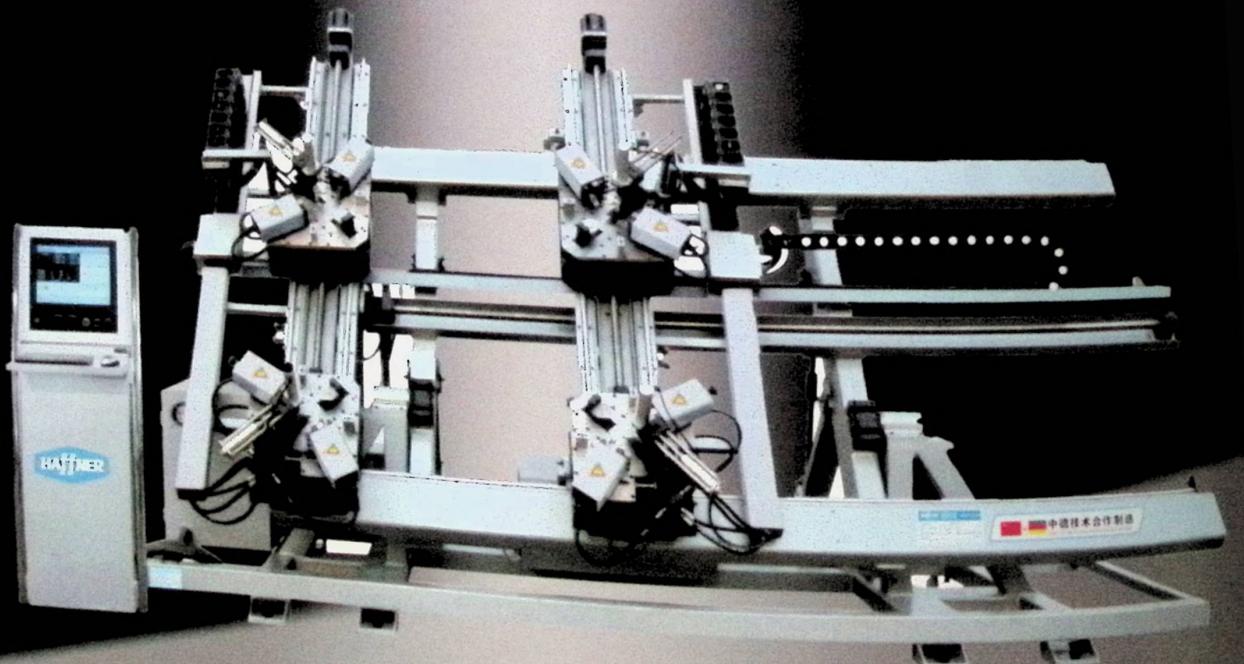

源于德国。经典传承。

HT-654

五轴数控四头调节组角机

5 Axis CNC Four Heads Corner Crimper Machine

技术参数 Specification

马达功率 motor power	7.5 kw
油泵额定压力 Oil pump rate pressure	20 mpa
组装最大尺寸 Max. assembling size	1800x3000mm
组装最小尺寸 Min. assembling size	480x480mm

产品介绍 Product Description

适用于高端门窗的组装，可一次完成四个角的角码连接压紧装置自动前后移动，组角刀可前用于不同型材。选用施耐德控制系统，实现四角自动预紧，确保组角精度，稳定可靠。
Design for assembly of high qualified aluminum window, door. Capable of connecting four corner brace one time by moving forward and backward automatically. The crimp tools can be adjusted on direction backward, left and right, suitable for various styles of aluminum profiles. Adopt imported schneider achieving four corners' automatic pre tightening to ensure process accurate, stable and reliable crimping.

HT-656

数字调节组角机

Digital Adjustment Corner Crimper Machine

技术参数 Specification

马达功率 Motor power	3.7 kw
工作方式 Work mode	液压 Hydraulic pressure
工作气压 Working air pressure	0.6~0.8 mpa
进料高度 FEED DOME HEIGHT	125mm

产品介绍 Product Description

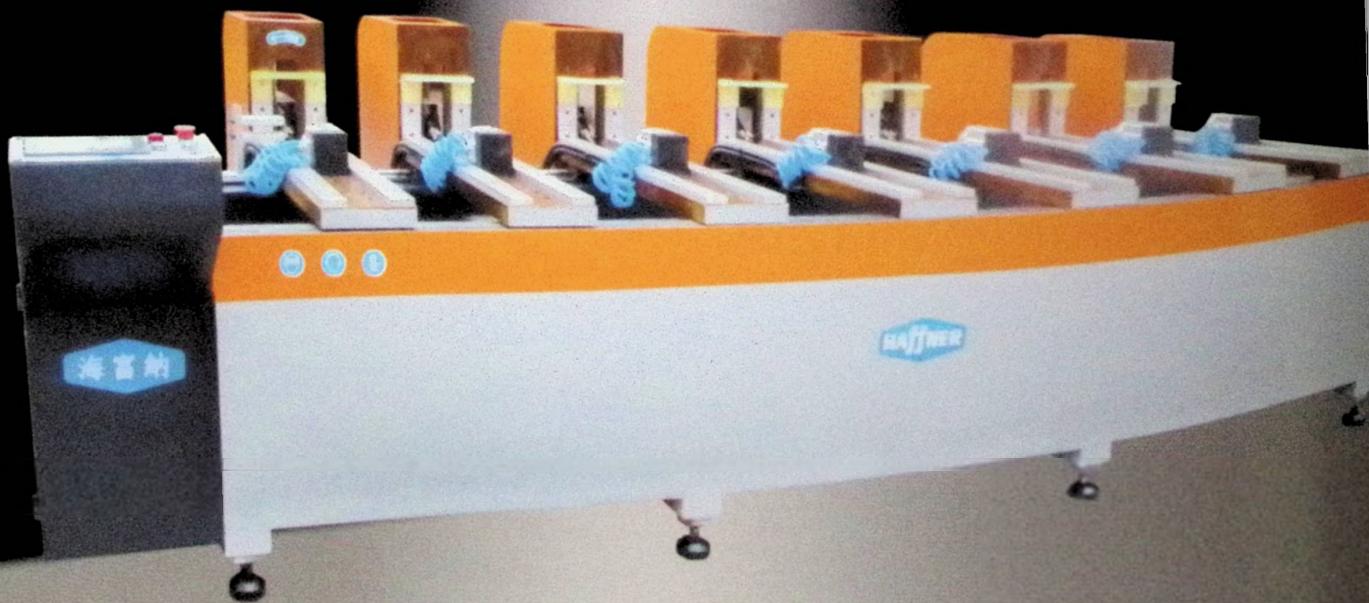

沿用成熟设计理念，结合客户切割需求设计开发。只需测量角码，材料厚度尺寸将定位调节至数字化。适用于各种隔热型材和超大型的门窗组角。机床选用高性能液压件驱动，功率大，噪音小。配有特殊三角上下升降块，取放型材更加方便、快捷。

Apply mature design concepts combined with customers' cutting demands. Only need to measure the size of corner dimension, thickness, and adjust the positioning to the digital position. Suitable for process on all kinds of heat-insulating profiles and super-large door and window corners. Driven by high-performance hydraulic parts, with high power and low noise with a special triangle up and down lifting block, easier and faster working on profiles.

HT-677
数控七头铝模板铣槽拉片机
CNC 7 Heads Aluminum Formwork Milling Panels Machine

产品介绍 Product Description

主要用于铝模板拉片铣槽而设计的一款产品，机床选用液压驱动。七个加工头同时加工，提高了加工效率。操作方便，加工精度高。

Mainly for milling grooves of aluminum template to pull sheets with hydraulically driven system. Seven processing heads process at the same time, which improves the processing efficiency to achieve convenient operation and high processing accuracy.

HT-679

数控铝模板支撑头切割锯

CNC Aluminum Formwork Supporting Structure Head Cutting Saw

技术参数 Specification

主机功率 Motor power	2x3.0 kW
锯片尺寸 Sawblade diameter	φ 500mm-1200mm
切割宽度 Cutting width	400mm
切割高度 Cutting height	150mm
加工精度 Processing accuracy	±0.1mm

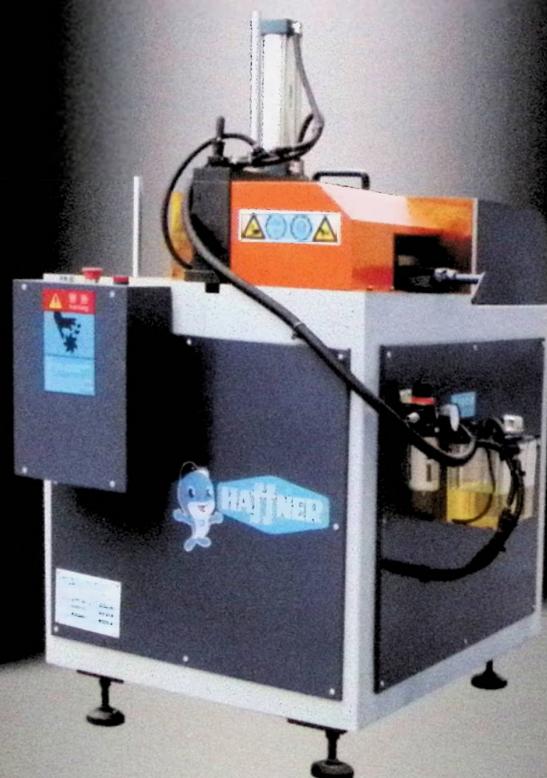

产品介绍 Product Description

主要用于铝模板支撑头切割，选用硬质合金锯片、切割型材表面光洁，自动切割，保证切割面质量，加工效率快。
 Mainly used for cutting aluminum template support heads with hard alloy saw blades, and cutting profiles with smooth surfaces. Automatic cutting to ensure the quality of the cutting surface and high processing efficiency.

源于德国，经典传承

HT-675 铝模板45度倒角锯 45 Degree Chamfer Saw For Aluminum Formwork

技术参数 Specification

主机功率 Motor power	2.6 kw
锯切行程 Processing range	400mm
锯切宽度 Cutting width	220mm
工作气压 Working air pressure	0.6~0.8 mpa

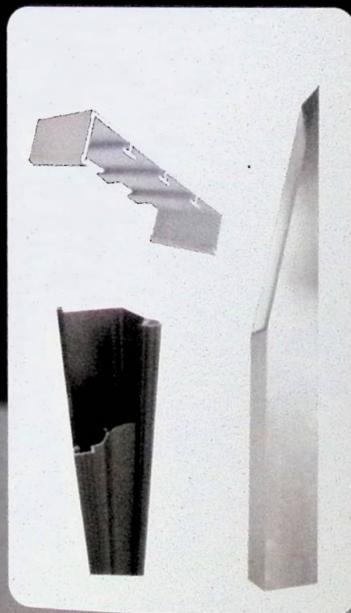

产品介绍 Product Description

适用于铝模板专业倒角，可成排倒角。选用高品质直出电机，锯片直接锯切，速度快，精度高。
Suitable for professional chamfering of aluminum template, chamfered in rows. The high-quality straight-out motor is selected, and the saw blade is designed directly with saw blade with fast speed and high precision.

HT-601C

数显手推多角度锯床

Manual Saw Machine For Compound Angles

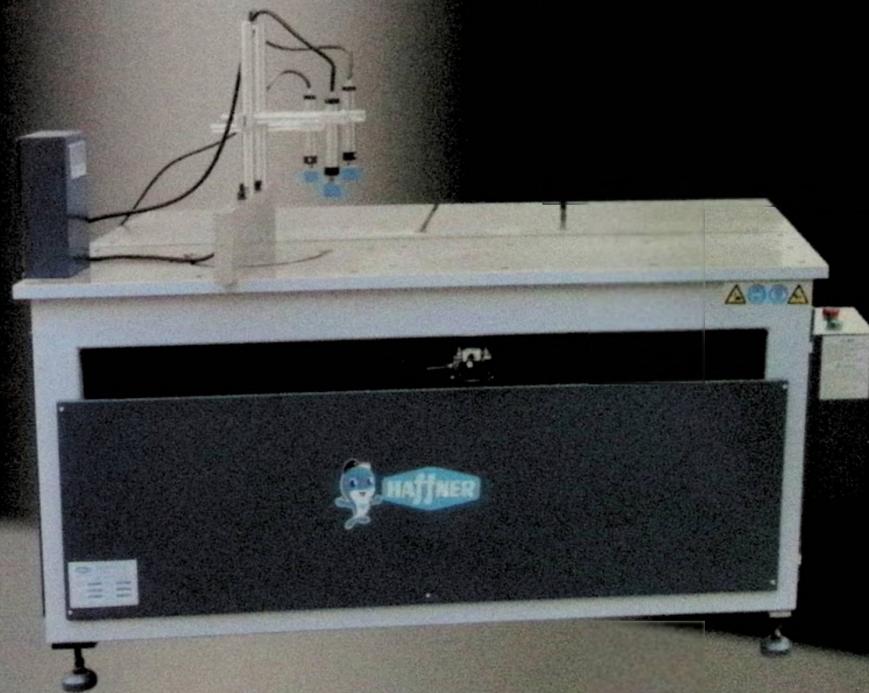

技术参数 Specification

主机功率 Motor power	4.0 kw
锯片尺寸 Sawblade diameter	φ600x30x1.20
切割宽度 Cutting width	800mm
切割高度 Cutting height	180mm
加工精度 Processing accuracy	±0.1mm

产品介绍 Product Description

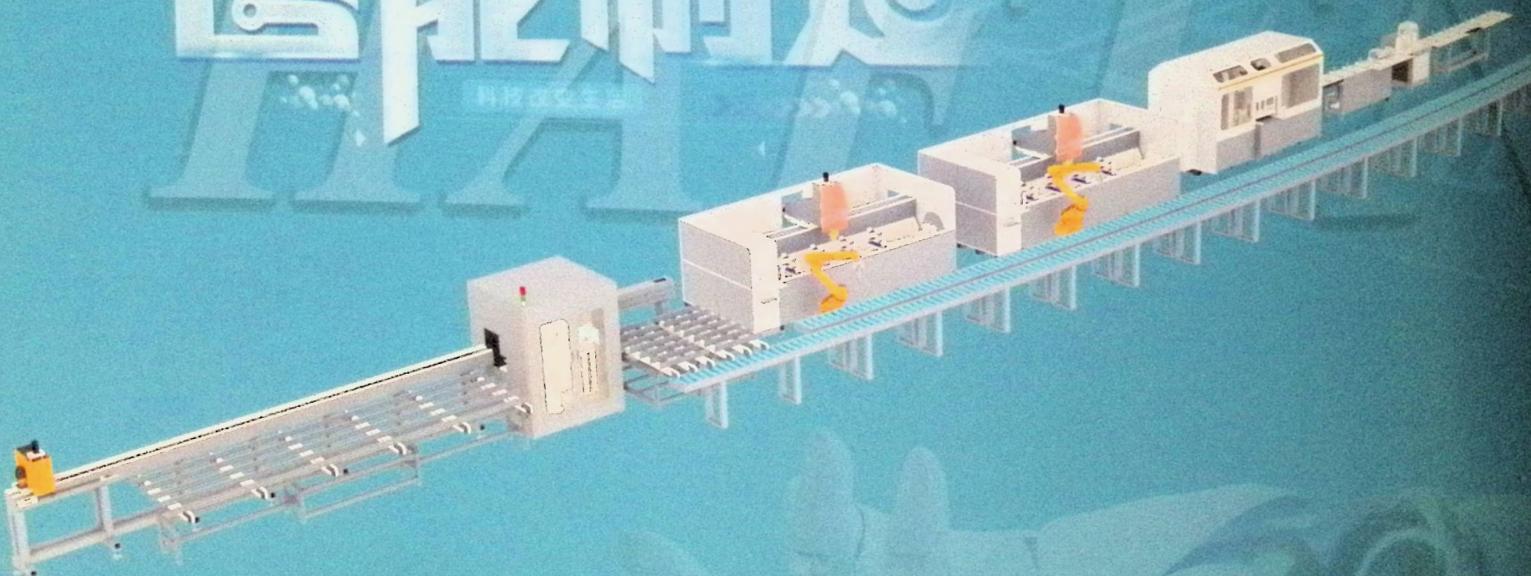

适合各种门窗幕墙、铝模版、汽车轻量化、轨道交通、智能家居、工业型材异型特种角度的切割。
选用硬质合金锯片，切割的四面表面光洁，加工精度高。

Suitable for aluminum doors, windows, curtain walls, aluminum templates, lightweight cars, rail transit, smart home, industrial profiles cutting on special angles. The hard alloy saw blade is selected, and the surface is smooth and the machining accuracy is high.
